

Sabyasachi Sahoo

Senior Front-End Developer

With 9 years of IT experience, I'm a Senior Front-End Developer skilled in JavaScript, TypeScript, React JS, Redux, and Node.js. As a Team Leader with MBRDI (Client), I've developed strong problem-solving skills and have experience in people and team management from my time as People Manager IBM, blending technical leadership with team dynamics.

Experience

- IBM

2019 - ongoing

Project 1 – MBRDI (2020/07 – ONGOING)

Role – Senior Front-End Developer

 - Developed dashboards for the automotive OEM industry to reduce car manufacturing time.
 - Led a team of 3-4 front-end developers to ensure timely delivery and high-quality code.
 - Improved app performance by adding a config-based dashboard for multiple views from a single codebase.
 - Led multiple teams for migration of a React app from version 16 to the latest.
 - Enhanced code base to support Micro Front end Architecture within 2 weeks.

Project 2 – MetLife (2019/09 – 2020/06)

Role – Front-End Developer

 - Design & developed public facing web app to process claims.
 - Improved code quality and performance of existing app.
 - Interacted with clients & worked with offshore team to ensure all priority UI stories are delivered in each sprint.

Mindtree

2018 - 2019

Project 1 – CRM Project (2019/02 – 2019/08)

Role – Front-End Developer

- Design & developed reusable react UI Components.
- Created Jobs onboarding module with improved performance.
- Worked with UI team to deliver all stories with proper code review and deployed new features in every release.

Project 2 – AIG (2018/07 – 2019/01)

Role – Front-End Developer

- Developed portal where an insurance agent can add, process and file claims on behalf of client globally.
- Have worked on multiple modules where refactored existing code to improve code quality & performance of application.

CGI

2015 - 2018

Project 1 – Arrow Electronics (2015/12 – 2018/05)

Role – Front End Developer

- Developed an e-commerce web application which handle B2B online marketplace.
- Interacted with offshore team to learn all UI related work and understand flow of the project.
